MADE TO MEASURE

The furniture of your premises
**will make the customer understand your
attention to detail!**

On the most important day of your life, like a wedding, you wouldn't want wearing a tailored suit, created specifically for your body and your unique style? Imagine the thrill of having a garment designed and studied to enhance your physical features and reflect your personal taste. Now, consider the choice of furniture for your place, which is equally crucial. Are you willing to rely on a common and banal solution? We know that every detail counts and that every place has its own identity. That's why we present you our solution, in fact WOSDE® is specialized in creating custom table accessories. Like a tailored suit, our products are designed to fit perfectly into your environment and make the most of it.

"95% of the time spent inside a restaurant is spent sitting at a table, don't waste this opportunity..."

Marco Menocci

The style and optimization of the table will not only be your business card but also a distinctive sign of attention to detail and passion for what you do.

The customer focuses on the details, and they are the ones that make the real difference between an average experience and an experience to remember.

Why is tailor-made important?

Choosing the right colors, shapes, and sizes to enhance your table is essential. Don't settle.

Our graphic department will develop your ideas and present you with all the ideal solutions to convey your style and your communication to the customer!

Placemats

guide to choosing
your perfect placemat

Ten years of work and development to create the perfect placemat for professional use.

The combinations of color, shape and size combined with the color of the thread (different for each side) allowed us to sew the perfect dress onto the table.

Listed below you will find the most requested and most common shapes, obviously everything is totally customizable.

Simply ask our sales office for a graphic rendering to see what is best suited to your table, without costs and without constraints.

A placemat for your restaurant is like a tailored suit.

Don't settle, EVER!

Choose the perfect shape for your table

Print your logo without any limitations on colors and sizes

**“A placemat for your place
It’s like a tailor-made suit.”**

Optimize your spaces as best as possible.

For an excellent mise en place you must always pay great attention to the space. Depending on the shape and size of your table **we can offer you various options, optimizing the spaces** and thus **creating balanced** and **functional compositions**.

Coasters

guide to choosing
your perfect coaster

Versatility without borders

Versatility is the key to a successful table setting, and WOSDE coasters are masters in this field.

Pair them with placemats for a coordinated look or let them shine on their own as little design masterpieces.

Whether you're creating an elegant setting for a special dinner or simply adding a touch of class to your table, WOSDE coasters are the ideal choice

“Versatility without borders”

1 FORMA

Choose the shape that best suits your table and placemats, to create dynamism and continuity.

2 THICKNESS

The thickness of the double face makes the coaster premium class and sound absorbing. When the glass touches it will be as if absorbed by a cushion.

3 DETAIL

In shape, in color and with the contrasting thread, every detail will enhance your table

Runner

guide to choosing
your perfect runner

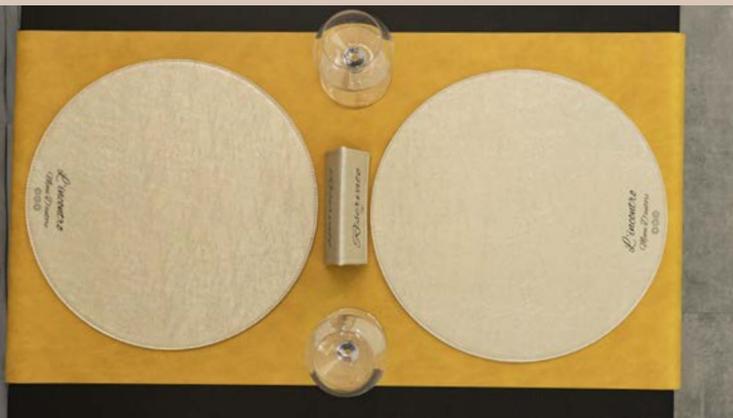

“Table runners add a distinctive touch when the equipment I am mainly for “tête-à-tête” tables

While the placemat is our go-to item, we understand that there are times when your restaurant hosts tables for two, to create that intimate union of food and company.

This is where table runners come in

These elegant accessories can be the distinctive touch you are looking for. Obviously they can be had in any size and dimension and here you will find the most requested dimensions based on the standard size tables.

Tablecloths

guide to choosing
your perfect tablecloths

In all those occasions where you need to cover the table to protect it or hide it, the tablecloth is the perfect solution!

Using the same material as the placemats, ensuring ease of cleaning for uncommon practicality.

In all possible sizes, completely made to measure, with no minimum order.

Soft single-layer finish with raw cut for a minimal style.

Cover

guide to choosing
your perfect cover

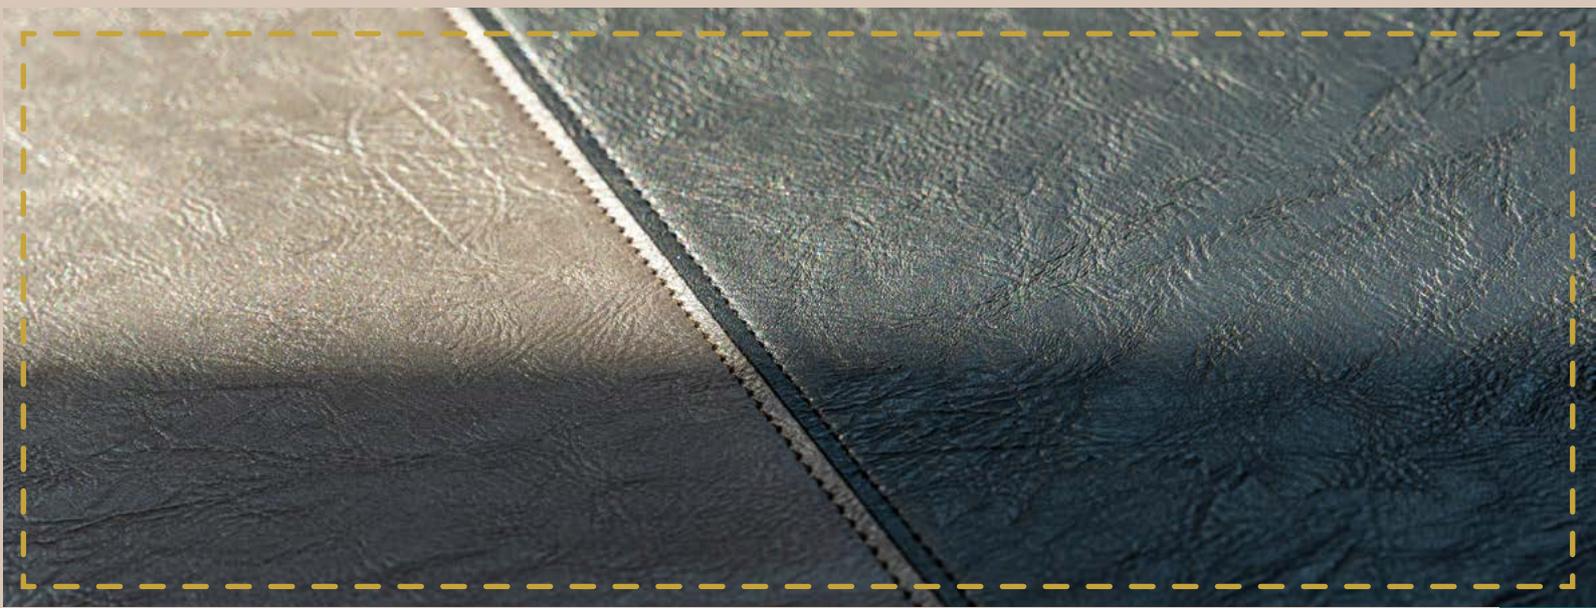

If the drop tablecloth is too classic, and you want a more modern solution with an innovative taste, this time taking advantage of the total double side, the cover is the perfect solution!

Obviously tailor-made flush with the edge of your table, whatever your size!

It will be like having a dress sewn on your table, which can be used if necessary in the color you prefer thanks to the double face.

Napkin ring

guide to choosing
your perfect napkin holder

The napkin ring is the detail that enhances your table, a perfect match with the placemat, using the same colors recalling the detail of the curves.

Customizable in all variants, fire logo and color logo.

The different sizes are used to have the perfect one based on the type of napkin to be inserted.

“The napkin ring is considered the particular par excellence”

Cutlery holder

guide to choosing
your perfect cutlery holder

The cutlery bag is functionality!

Combining **elegance and practicality**, the cutlery bag is the **finishing touch** for organizing a table in certain situations. It can be matched with any tablecloth or runner, and it also works very well with very small placemats.

Bringing the bag to the table with cutlery and napkin already inside halves the time of table preparation and increases efficiency in the room.

Everything will remain more orderly and the staff will function like an orchestra. Also great for those minimal tables where you are trying to eliminate the table linen but want to add a **touch of style** and perhaps show off the logo, whether it is branded or printed.

STITCHING COLOR

The color of the thread plays a fundamental component and can be matched to the color of the cutlery or napkin for a unique mix.

COLOR COMBINATION

The color customization is total. In the new version it is completely sanitizable even inside for a total hygiene.

Cutlery rest

guida alla scelta del tuo poggia posate perfetto

In minimal tables, one tries to remove as many objects as possible from the mise en place to favor only the plate but inevitably the idea of cleanliness and hygiene must be communicated to the customer.

This is why the WOSDE cutlery rest was born!

Noise also plays a leading role. Cutlery placed on the table creates a metallic noise that is not always pleasant, especially in small rooms where the reverberation of the sound sometimes becomes unbearable. With this accessory you will significantly reduce the acoustic annoyance by exploiting the intrinsic soundabsorbing properties of the material itself.

Available in all double-sided variations and in all sizes.

Menu eco-cuoio

guide to choosing
your perfect menu

Discover ECOCUOIO, the menu that combines design, sustainability and quality. Made with GRS (Global Recycled Standard) certified materials, it is a “second life” product, perfect for those who want an eco-friendly option without sacrificing style.

The interior is made of 100% recycled leather paste bonded together with natural latex, while the exterior is made of coated material and offers high customization: you can choose between printing your logo or an all-over graphic, with colors true to your brand, including Pantone and CMYK. As flexible as real leather, eco-leather has a pleasant texture to the touch and a thickness of 16/10, giving it resistance and refinement.

The customizable elastic fastening system ensures convenience and versatility, allowing you to easily update contents.

The only limit? Your imagination.

*"The simplicity
and practicality
in your menu"*

The vine menu is the true classic of WOSDE® menus.

Designed to be practical and fast, with the function of being elegant following the trend of the placemats and copying the style of the entire place by choosing the colour of the inside, the colour of the outside and the sewing threads, creating a harmonious and welldefined environment in the minds of the customers.

Praticity is the motto.

Including 6 pockets (12 pages), you can insert the sheets directly into the inserts, easy to clean.

For those who don't like plastic, an equally easy solution is to directly insert the sheet of paper into the menu.

Modular menu

Wosde® 3 in 1

guide to choosing
your perfect menu

This solution combines the three most requested and sold versions:
elastic, screws and magnet.

The premium hard cover is designed with an elastic hole and increased space, offering maximum versatility. The basic modular menu is born as a rigid menu with elastic and expanded interaxis, but it can be adapted over time: at a later time, it is possible to add a clip for screws or a clip for magnets, depending on the needs.

Perfect for those who want a premium menu without sacrificing flexibility for future upgrades.

Zero constraints, zero uncertainties. Only freedom of choice.

Soft Change Return

guide to choosing
your perfect changer

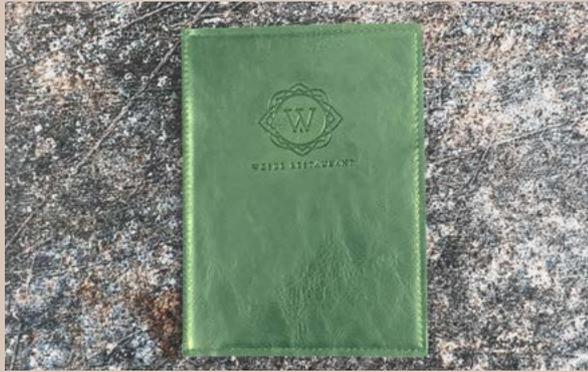

Perfect Harmony:

Attention to detail makes a venue experience truly unique! Receiving a bill and change at the table with a banal change holder or bill holder does not convey anything distinctive, and for this very reason you can choose colors, finishes and sizes that match your placemats to make everything harmonious and elevate the customer perception of your venue.

Don't settle for just any change! Get out of the ordinary...

Obviously customizable in the fire and color printing versions.
